Subj: Texas Utilities Electric Company (Comanche  
Peak Steam Electric Station, Units 1 and 2);  
Docket Nos. 50-445 and 50-446

Dear Administrative Judges:

Applicants received today your Memorandum (Official Notice Concerning Pipe Supports), issued November 9, 1984, in which you invite the parties "to correct" a portion of the transcript from the October 23, 1984, meeting between Applicants and the NRC Comanche Peak TRT. The cited portion of the transcript concerns certain preoperational testing.

Applicants do wish to assist the Board in resolving any concern it may have. However, because we are not able to grasp the Board's concern from what it said in its Memorandum, it would assist Applicants if the Board clarified its concern. This would assure that our response is properly focussed and complete. We therefore respectfully request that the Board clarify the point it is raising in its Memorandum.

Sincerely,

Nicholas S. Reynolds  
Counsel for Applicants
