Dear Mr. Griffin:

We have completed our review of your submittals concerning Environmental Qualification of Safety Related Electric Equipment for Arkansas Nuclear One, Unit 2 (ANO-2). The details of our review are contained in the enclosed Safety Evaluation (SE).

Based on our review, we conclude that Arkansas Power and Light Company's Equipment Qualification Program for ANO-2 is in compliance with the requirements of 10 CFR 50.49, that the proposed resolution for each of the environmental qualification deficiencies identified in our previous SE dated April 15, 1983 is acceptable, and that continued operation of ANO-2 will not present undue risk to the public health and safety.

Sincerely,

James R. Miller, Chief  
Operating Reactors Branch #3  
Division of Licensing
