In the Matter of the Conspiracy to License the Diablo Canyon  
Nuclear Power Plant, to Violate the First Amendment,  
to Vitiolate the Principle of Affirmative Action, etc.,  
All Against the Public and Minority Interests

Dear Mr. Baldrige:

I refer to my correspondence with Director J. M. Felton, Nuclear  
Regulatory Commission. Mr. Felton, a competent and experienced  
Civil Servant, is now fully aware of the corrupt interaction and  
gross collusion of the Nuclear Regulatory Commissioners with  
Secretary James Watt, Commissioner Robert Broadbent, Director  
Dallas Peck et al. with the Pacific Gas and Electric Company,  
Governor George Deukmejian, Southern California Edison Company,  
American Nuclear Insurers, Portland General Electric Company,  
Westinghouse Electric Company et al. in the matters now under  
investigation. (A) You are now informed that ~~the~~ Director Hugh  
McNiven, Earthquake Engineering Research Center, University of  
California at Berkeley, has been unable to produce a single letter  
on the matters now under investigation originating with the  
Deukmejian Administration and the California Seismic Safety Com-  
mission. (B) I refer to my letter of September 23, 1983, to  
Ambassador Zhang Wenjin. I now request you to produce or to  
identify the documents that John A. Blume & Associates reviewed  
for the Atomic Energy Commission (NRC) in performing their REVIEW  
OF THE SEISMIC DESIGN CRITERIA FOR THE TROJAN NUCLEAR PLANT (Docket  
No. 50-344), June 23, 1970, pp. 103-108, signed by Mr. Roland E.  
Sharpe and Mr. Garrison Kost. (C)
