Gentlemen:

This refers to the inspection conducted by R. G. Taylor and other personnel of this office during the period January 15-25, 1985, of activities authorized by NRC Construction Permit CPPR-147 for the Wolf Creek Generating Station, and to the discussion of our findings with Mr. R. M. Grant, and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included followup on previous inspection findings, IE Bulletins, construction deficiency reports, and selected concerns reported by your construction self assessment team. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Original Signed By:
Richard P. Denise
