IN RESPONSE REFER  
TO FOIA-84-274

Dear Ms. Dove:

This is in partial response to your letter dated April 12, 1984, in which you requested, pursuant to the Freedom of Information Act, that a copy of the enclosure to a March 3, 1984 letter from Mr. P. L. Willman of the State of Illinois to Mr. R. J. Goddard of the NRC relating to the functional description of the safety parameter display system at the Clinton Power Station, and SECY-84-24, be placed in the NRC's Public Document Room (NRC PDR), 1717 H Street, NW, Washington, DC 20555.

In partial response to your request, we have determined that we do not have the letter dated March 3, 1984, you described. We have, however, located a letter dated March 30, 1984, which has a four page enclosure marked "Proposed Contention III."

A copy of this document is being placed in the NRC PDR where it will be available for public inspection and copying.

We will communicate with you again concerning the disposition of SECY-84-24.

Sincerely,

A handwritten signature in black ink, appearing to read "J. M. Felton".
