Dear Commissioners:

As a Suffolk County Legislator, I respectfully request that you allow the County of Suffolk, through its legal counsel, to make oral arguments in the Shoreham low power proceedings.

The Shoreham Nuclear Power Plant and the health and safety issues it has created is of the utmost importance to the residents of Suffolk County. They should not be denied the fullest and fairest opportunity to present their concerns.

Thank you for allowing me to place my comments on the record.

Sincerely yours,

*John J. Foley*
