

February 27, 1985

Docket No. 50-333

Mr. C. A. McNeill, Jr.
Executive Vice President,
Nuclear Generation
Power Authority of the State
of New York
123 Main Street
White Plains, New York 10601

Dear Mr. McNeill:

SUBJECT: IMPLEMENTATION OF REGULATORY GUIDE 1.97, REV. 2

Re: James A. FitzPatrick Nuclear Power Plant

Your letter dated November 30, 1984 forwarded plans and a proposed schedule to implement the guidance of Regulatory Guide 1.97, Rev. 2 at the FitzPatrick facility. Attachment 2 of your letter provided installation completion dates associated with the Type A, B, C, D, and E measured variables. At our meeting on January 29, 1985 with representatives of your staff, the acceptability of these dates was discussed and our need for justifications of these dates was identified. Accordingly, for each variable listed in Attachment 2 of your November 30 letter having a completion date of "30 days after 1986 Refueling Outage (Reload 7/Cycle 8)" or "30 days after 1987 Refueling Outage (Reload 8/Cycle 9)" we request that you provide us, within 45 days of receipt of this letter, with a detailed justification as to why installation cannot be completed before these dates.

Sincerely,

Original signed by/

Domenic B. Vassallo, Chief
Operating Reactors Branch #2
Division of Licensing
