

GENERAL ELECTRIC

NUCLEAR POWER SYSTEMS DIVISION

GENERAL ELECTRIC COMPANY • 175 CURTNER AVENUE • SAN JOSE, CALIFORNIA 95125
MC 682, (408) 925-4656 MFN-167-84

December 10, 1984

U. S. Nuclear Regulatory Commission
Office of Nuclear Reactor Regulation
Washington, D.C. 20555

Attention: Paul H. Leech, NRC Project Manager
Pilgrim Nuclear Power Station

Gentlemen:

SUBJECT: SAFETY ANALYSIS REPORT FOR PILGRIM SPDS

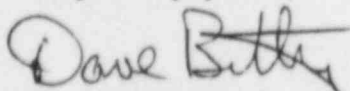

- References:
- 1) General Electric Company, "Safety Analysis Report for the Pilgrim Nuclear Power Station Emergency and Plant Information Computer (EPIC) Safety Parameter Display System (SPDS)", NEDC-30641, June 1984
 - 2) Telecon between D. B. Bitter (GE) and L. Beltracchi (NRC) on December 4, 1984

The purpose of this letter is to document that GE gives permission to summarize selected portions of Reference 1 to facilitate the NRC Staff's completion of the associated Safety Evaluation Report (SER). This permission was also given verbally in a telecon between Leo Beltracchi and myself (Reference 2).

It is necessary for the Staff to reference the material in question to substantiate their conclusions on data validation. The portions of Reference 1 which are acceptable to use in the Staff SER are included in Sections 3.3.6 (page 13), 4.1.3 (page 21) and 4.6 (page 32).

If you have any questions on the above, please contact me on (408) 925-4656.

Very truly yours,

Dave Bitter, Licensing Engineer
3WR Systems Licensing
Nuclear Technologies and Fuel Division
