December 5, 1984

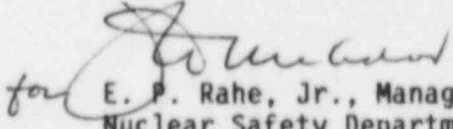

Mr. Cecil O. Thomas, Chief
Standardization and Special Projects Branch
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Phillips Building
7920 Norfolk Avenue
Bethesda, Maryland 20014

Dear Mr. Thomas:

As discussed in a meeting in Bethesda, Maryland on October 8, 1984 between Westinghouse and NRC representatives and documented in a letter from Cecil O. Thomas to E. P. Rahe,, dated November 15, 1984, the requested additional information will be provided by Westinghouse on WCAP-9172(P)/9264(NP), "An N-16 Transit Time Flow Measurement System (TTFM) Description and Performance."

The additional generic information of the TTFM system will be provided to the NRC by the first refueling outage at the Comanche Peak Nuclear Plant or at a time at which tests may be conducted at a future alternate site installation, whichever occurs first.

Very truly yours,

for E. P. Rahe, Jr., Manager
Nuclear Safety Department
