Interim Security Plan for Fuel Storage

Houston Lighting and Power Company (HL&P) expects to submit an application later this year for a Special Nuclear Material License to receive and store reactor fuel at the South Texas Project Site. The fuel is currently scheduled to begin arriving at the site in mid 1986. To support the receipt of fuel at the site, HL&P has prepared the attached Interim Security Plan for Fuel Storage. This plan will provide security for reactor fuel until the South Texas Project Electric Generating Station Security Plan is implemented.

If you have any questions, please contact Mark McBurnett at (512) 972-3651, extension 6054.

Very truly yours,
