DOCKET NO. 50-400  
MOTOR OPERATORS - ENVIRONMENTAL QUALIFICATIONS

Dear Dr. Grace:

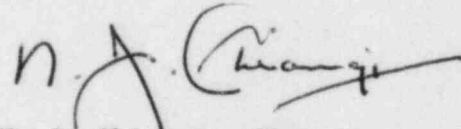

This is to confirm the February 1, 1985 telephone conversation between Mr. N. J. Chiangi (CP&L) and Mr. A. Hardin. Mr. Hardin was informed that the January 4, 1985 potentially reportable item, pertaining to the specification for motor operated valves located in the main steam tunnel not requiring qualification to the environmental qualification requirements as stated in the FSAR, has been evaluated and considered not to be reportable per the provisions of 10CFR50.55(e).

Thank you for your consideration in this matter.

Yours very truly,

NJC/mt
