Gentlemen:

Subject: Inspection No. 70-371/84-08

This refers to the routine safety inspection conducted by Mr. J. Roth of this office on August 20-22, 1984.

We are concerned that your management controls have not adequately assured that individuals perform personal contamination surveys upon exiting from contamination control areas. Your corrective actions on this item, which were discussed during an enforcement conference at Region I on November 8, 1983, do not appear to be effective. We are still finding instances of failure to perform personal contamination surveys. Please respond within 30 days of the date of this letter with a written statement including (1) actions taken to assure correction of this item and (2) changes to your management controls to assure that items are not allowed to remain uncorrected. That response will be reviewed to determine whether further enforcement action is appropriate to this uncorrected violation.

The response requested above is not subject to clearance by the Office of Management and Budget under the Paperwork Reduction Act of 1980, PL 96-511. This transmittal will be made public unless you notify this office, within 10 days of the date of this letter, that you intend to request withholding of information under 10 CFR 2.790(b)(1). That notification may be made to the Supervisor, Files, Mail and Records, USNRC Region I, at (215) 337-5223.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By:
