Docket No. 50-321

HL-5172

U. S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, D. C. 20555

Edwin I. Hatch Nuclear Plant - Unit 1
Cycle 17 Core Operating Limits Report, Revision 1

Gentlemen:

By Amendment 168 to the Unit 1 Technical Specifications, the NRC authorized relocation of certain fuel-related limits from the Technical Specifications to the adjunct Core Operating Limits Report (COLR). This letter transmits an information copy of Revision 1 of the COLR for Hatch Unit 1 Cycle 17.

This revision reflects the analysis and associated Minimum Critical Power Ratio penalties that would be imposed for operation with inoperable main turbine bypass valves.

If you have questions regarding the enclosed COLR, please contact this office.

Sincerely,

J. T. Beckham, Jr.

DLP/ld
