Docket No. 71-9006

Tech/Ops. Inc.
ATTN: Mr. John J. Munro, III
Technical Director
Radiation Products Division
40 North Avenue
Burlington, Massachusetts 01803

Gentlemen:

This is to confirm our January 14, 1985 telephone conversation concerning the fee requirements for the submission of a consolidated application requested by the Licensing staff in order to complete the review of your October 19, 1984 request for renewal of Certificate of Compliance No. 9006.

Since the \$150 application fee specified in fee Category 10E of \$170.31 of the enclosed 10 CFR 170 was paid for your October 19, 1984 application, no additional fee will be required for the submission of the consolidated application. Please note, however, that \$170.12(d) provides that the licensee will be billed for all accumulated costs at six-month intervals or when the review is completed, whichever is earlier. As stated in Footnote 3 of \$170.31, the fee will be determined based on the professional staff-time and appropriate contractual support services expended for review of the application up to the maximum amount specified in the fee category.

If you have any further questions concerning this matter, please let me know.

Sincerely,

Original Signed By
Glenda Jackson
