Docket No. 50-293

Mr. William D. Harrington  
Senior Vice President, Nuclear  
Boston Edison Company  
800 Boylston Street  
Boston, Massachusetts 02199

Dear Mr. Harrington:

SUBJECT: CONTROL OF HEAVY LOADS (PHASE I)

Re: Pilgrim Nuclear Power Station

We have completed our review of Control of Heavy Loads (Phase I) for the Pilgrim Station. Our review was based on your response to our December 22, 1980 Generic Letter on "Control of Heavy Loads" and the supplemental information you subsequently provided. Based on our review and that of our consultant, the Franklin Research Center, we have concluded that the guidelines of NUREG-0712, Sections 5.1.1 and 5.3, have been met. Therefore, Phase I of our review has been completed.

Copies of our Safety Evaluation and our consultant's Technical Evaluation Report are enclosed. An evaluation of Phase II will be the subject of future correspondence.

Sincerely,

Original signed by/

Operating Reactors Branch #2
