Subject: McGuire Nuclear Station
Docket Nos. 50-369 and 50-370

Gentlemen:

In the period from February 1, 1985 to February 7, 1985, McGuire Nuclear Station (Units 1 and 2) experienced nine events that are considered reportable. Due to the manpower required to investigate, document, and report each of these events, it will not be possible to submit reports for each event within the 30-day period (which ends March 8, 1985). As of the date of this letter, four reports have been submitted. The investigations for the remaining five events are continuing and all nine reports will be submitted by March 22, 1985.

Very truly yours,

Hal B. Tucker
