Attn: Public Relations

Dear Sir/Madam:

We have been retained by the Blood Center of Southeastern Wisconsin in Milwaukee to assist them on commercializing products and services of their research.

The Blood Center has recently developed a computer software package that keeps track of inventory on radioisotopes. This software program complies with the standards of the Nuclear Regulatory Commission. We are interested in contacting companies and institutions who store radioisotopes and would use a system to assist them in monitoring their inventory and decay levels on radioisotopes.

Under the Freedom of Information Act I would like to request a list of every licensee in your region who stores radioisotopes.

If further information is required please do not hesitate to call me at (414) 277-0778.
