

MAR 23 1979

APPENDIX A

NOTICE OF VIOLATION

Memphis State University
Center for Nuclear Studies

License No. R-127

Based on the NRC inspection March 6-7, 1979, certain of your activities were apparently not conducted in full compliance with NRC requirements as indicated below. These items have been categorized as described in correspondence to you dated December 31, 1974.

As required by 10 CFR 73.40, written security plans submitted to the Nuclear Regulatory Commission shall be followed. The licensee's security plan, dated July 14, 1976, states under section II, E(1) that the

Contrary to the above, the licensee failed to conduct and document the as committed to in the security plan.

This is a deficiency.
