Subject: [External_Sender] Re: request for regulatory relief
Date: Monday, April 20, 2020 3:55:08 PM

Good Afternoon Ms. Elliott,

Thank you so much for your kind response. Per our discussion on the phone today, NRC has determined that the Howard University and the University Hospital Radiation Safety program needs an exemption for license activities covered under license no. 08-00386-19 during this COVID19 pandemic period only.

I am confirming that the statement in your email is correct.

Sincerely,

With Kind Regards – Satya Bose

Dear Dr. Bose,

Please respond to confirm that, based on our telephone call today, you are withdrawing your request for regulatory relief from the requirements under license no. 08-03075-07 as outlined in your initial request dated April 10, 2020 . This was determined after reviewing your response dated 4/17/2020, and because your radiation safety staff and nuclear medicine staff are considered

essential personnel and are continuing operations as normal. You further noted that the radiation oncology program is not operational at this time. Additionally, you stated that your request was limited to the academic research operations covered under license no. 08-00386-19.

Please correct my understanding if this is not correct.

Regards,

Robin L. Elliott
