Re: Docket No. 50-275, OL-DPR-80
Docket No. 50-323
Diablo Canyon Units 1 and 2
Proposed Change to NPDES Permit

Dear Mr. Knighton:

Section 3.2 of Appendix B to Operating License DPR-80 requires PGandE to provide a copy of proposed changes to the National Pollution Discharge Elimination System (NPDES) permit to the NRC. Enclosed is a copy of a request to change PGandE's NPDES permit submitted to the California Regional Water Quality Control Board on March 1, 1985.

Kindly acknowledge receipt of this material on the enclosed copy of this letter and return it in the enclosed addressed envelope.

Sincerely,

for J. D. Shiffer

H. M. HOWE
CHIEF SITING ENGINEER

March 1, 1985

Mr. Kenneth R. Jones
Executive Officer
California Regional Water Quality
Control Board
1102 A Laurel Lane
San Luis Obispo, CA 93401

Dear Mr. Jones:

Subject: Change of Location of Nonradiological
Chemical Laboratory Waste Discharge Point at
Diablo Canyon Power Plant, NPDES
No. CA0003751

We plan to change the discharge point of the nonradiological portion of our chemical laboratory wastes from the Liquid Radioactive Waste Treatment System Effluent (Discharge 001D) to the Turbine Building Sump (Discharge 001F). These wastes average approximately 200 gallons per day and result from chemical analyses required under the Self-Monitoring Program. This change will not result in an increase in volume of effluent discharged nor will it involve a change in the quality or quantity of the waste materials discharged, only the location of the discharge. Also, this change will not affect our ability to meet the effluent limitations prescribed under the NPDES permit for Discharge 001F or the monitoring requirements prescribed under the Self-Monitoring Program. The monitoring requirements for Discharge 001F are, incidentally, more stringent in general than those prescribed for Discharge 001D.

Mr. Walton of my staff discussed this change with Mr. Van Voris of your staff on March 1, 1985. Since the planned change involves only a minor modification of Finding 4 and does not constitute a new discharge, Mr. Van Voris concluded that this letter would constitute sufficient notification to implement the change. Therefore, we plan to effect the change immediately unless notified to the contrary by your office.

If you have any questions regarding this matter, please call me or Dr. C. P. Walton of my staff at (415) 972-6903.

Sincerely,
H.M. HOWE
