MEMORANDUM TO: Lemoine J. Cunningham, Chief  
Safeguards Branch  
Division of Reactor Program Management  
Office of Nuclear Reactor Regulation

FROM: Blaine Murray, Chief, Plant Support Branch

SUBJECT: REQUEST FOR HEADQUARTERS REVIEW OF CHANGE TO SECURITY PLAN,  
CONTINGENCY PLAN, AND SECURITY TRAINING AND QUALIFICATION PLAN  
FOR WOLF CREEK NUCLEAR OPERATING CORPORATION

During our review of Revision 27 to the Wolf Creek Security Plan, Contingency Plan, and Security Training and Qualification Plan, we noted that a proposed change involves policy implications and requires action at the headquarters level.

Change 7 to Revision 27 to the Wolf Creek Security Plan, Contingency Plan, and Security Training and Qualification Plan proposes to allow material that was searched, loaded and equipped with a special container-seal at another location (another licensee, a contractor etc.), to enter the Wolf Creek protected area without being again searched.

There are no current rules and guidelines available to Region IV to allow material that was previously searched, loaded and sealed at another location (except factory sealed cargo), to enter the licensee's protected area without again being searched.

This issue has been forwarded to your office for policy review.

We have discussed our referral with N. Ervin of your staff and have notified the licensee of the transfer of review responsibilities, for this single item, from the regional office to headquarters. A copy of our letter (with enclosure) informing the licensee of this action is enclosed.

Blaine Murray, Chief  
Plant Support Branch
