Docket No. 50-443
NYN-96040

United States Nuclear Regulatory Commission
Attention: Document Control Desk
Washington, DC 20555

Seabrook Station
Notice of Completion of Rod Control Timing Modification

North Atlantic Energy Service Corporation (North Atlantic) committed by letter dated November 1, 1994¹, to install a Rod Control System timing modification during Refueling Outage 4. The NRC, in a letter dated February 22, 1995² confirmed the installation date and requested that North Atlantic provide notification of completion. This letter provides the requested notification. The Rod Control System timing modification was implemented during Refueling Outage 4 and was declared operational on December 6, 1995. This letter also documents North Atlantic's commitment to perform a Rod Control System current order verification surveillance each refueling outage as recommended by the Westinghouse Owners Group.

Should you have any questions concerning this matter, please contact Mr. Anthony M. Callendrello, Licensing Manager, at (603) 474-9521, extension 2751.

Very truly yours,

NORTH ATLANTIC ENERGY SERVICE CORP.

William A. DiProffo
Station Director

cc: T. T. Martin, Region I Administrator
