Atlanta, Georgia 30323

Dear Mr. O'Reilly:

BELLEFONTE NUCLEAR PLANT UNIT 1 - SUPPLEMENTAL INFORMATION FOR VIOLATION
50-438/84-01-02 - FAILURE TO PREVENT PRACTICES THAT CAUSE DETERIORATION OF
AN ELECTRICAL PANEL COMPONENT

TVA responded to R. C. Lewis' letter dated February 17, 1984, report numbers 50-438/84-01 and 50-439/84-01, concerning activities at the Bellefonte Nuclear Plant which appeared to have been in violation of NRC regulations by letter dated March 14, 1984. This was followed by our supplemental reports dated September 12 and October 30, 1984. Please note that in our October 30, 1984 letter TVA inadvertently neglected to state that the relevant Quality Control Procedures would be issued by December 12, 1984. Please revise your records accordingly.

If you have any questions concerning this matter, please get in touch with R. H. Shell at FTS 858-2688.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
