Mr. James V. Zimmerman
Assistant Director
Office of International Safeguards
Office of International Programs
U.S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Zimmerman:

Subject: Amendment Request XSNM866/ASCO Unit 1 - Spain

This amendment request is a modification of our outstanding amendment request dated March 25, 1983, letter no. MMH-356.

We now request that the existing license XSNM866 please be revised as follows:

ITEM	FROM	TO	CHANGES
Uranium	73,173 Kgs	93,501 Kgs	+20,328 Kgs
U 235	1,915 Kgs	2,566 Kgs	+ 651 Kgs
Enrichment w/o	3.14 max.	3.2 max.	+ .06 max.

Extend expiration date from 12/31/84 to 12/31/86 (instead of to 12/31/89 as requested in our letter MMH-356).

The added SNM is for 44 fuel assemblies for reload region No. 4.

There will be no Intermediate Consignee.

Origin of source material being added: Canada and U.S.

Enrichment of added material: U.S. (DOE)
