MEMORANDUM TO: Ashok C. Thadani, Associate Director
for Technical Review

THRU: Gary M. Holahan, Director
Division of Systems Safety and Analysis

FROM: Robert C. Jones, Chief
Reactor Systems Branch
Division of Systems Safety and Analysis

SUBJECT: WAIVER OF CRGR REVIEW OF NEDO-32339, SUPPLEMENT 4, SAFETY
EVALUATION (TAC NO. M94251)

REFERENCE: Memorandum E. L. Jordan to T. E. Murley, "CRGR Consideration
of Topical Reports," September 29, 1989

Attached is the safety evaluation report prepared by the Division of Systems Safety and Analysis, in which the staff accepts topical report NEDO-32339, Supplement 4, and its errata for referencing in licensing applications. The staff proposes that the Committee To Review Generic Requirements (CRGR) review be waived in accordance with the procedures in the above referenced memorandum.

NEDO-32339, Supplement 4, and its errata describe generic technical specifications used to implement the previously approved stability long term solution Enhanced Option I-A. The technical specifications are formatted in conformance with the standard technical specification. The subject report does not require any new staff technical position.

According to its charter, CRGR should review all staff approvals of topical reports. However, since NEDO-32339, Supplement 4, does not require any new staff technical position and is consistent with the solution Option I-A approval previously reviewed by CRGR, we believe that CRGR review is not necessary. Please indicate that you agree by signing on the line below. Otherwise, we shall prepare an appropriate CRGR package.
