SUBJECT: CORRECTION TO AMENDMENT NO. 156

Dear Mr. Frizzle:

On April 5, 1996, the Commission issued Amendment No. 156 to Facility Operating License No. DPR-36 for the Maine Yankee Atomic Power Station, in response to your application dated August 31, 1995, as supplemented by letter dated February 29, 1996. The amendment revised License Condition 2.B(6)(c), Fire Protection, and relocated fire protection requirements from the Maine Yankee Atomic Power Station Technical Specifications to the Maine Yankee Fire Protection Plan.

Due to an administrative error, the second page of the license amendment contained inaccurate dates. Also, the asterisk information at the bottom of the page is being removed. Pages 3 and 4 of Facility Operating License No. DPR-36 are being reissued to provide the correct dates for item 2.B.(6)(c), and remove the markings in the left hand margin, respectively.

We apologize for any inconvenience this may have caused.

Sincerely,

(Original signed by)

Edouard H. Trottier, Project Manager
Division of Reactor Projects I/II
Office of Nuclear Reactor Regulation
