

JAN 17 1985

Docket No. 50-346

Toledo Edison Company  
ATTN: Mr. J. Williamson  
Chief Executive Officer  
Edison Plaza  
300 Madison Avenue  
Toledo, OH 43652

Gentlemen:

This refers to the meeting which C. Norelius, W. Shafer, and I held with you on December 28, 1984.

The primary purpose of this meeting was to discuss inspection findings and regulatory concerns with you personally, which we had previously discussed with other management representatives of Toledo Edison on October 2, 1984. The matters discussed in the earlier meeting were documented in my letter dated October 30, 1984 to Mr. Johnson. (A copy of that letter is enclosed.)

I appreciated the opportunity to meet with you. We plan to work closely with you and your staff to follow your program for improving regulatory performance at the Davis Besse facility.

Sincerely,

**Original signed by**

Docket No. 50-346

Toledo Edison Company  
ATTN: Mr. W. Johnson  
President  
Edison Plaza  
300 Madison Avenue  
Toledo, OH 43652

Gentlemen:

This refers to the meeting which R. C. DeYoung, C. Norelius, and myself held with you and R. Crouse on October 2, 1984. This meeting was held to discuss regulatory improvements at the Davis Besse facility.

Based on our review of the regulatory performance of the Davis Besse facility over the past few years, the results of the recent PAT inspection, the timeliness of actions to improve the training program, and recent operating events that have occurred at the facility, we expressed concern that activities undertaken to improve regulatory performance at the facility are not progressing at a rate necessary to ensure the level of excellence desired at the Davis Besse facility. We recognize that the company has been involved in a performance enhancement program and has taken steps to improve its regulatory performance. However, the items identified above indicate that such action has not been timely nor effective in all areas. During the meeting you indicated your desire to achieve a high level of excellence for operations of the Davis Besse facility.

Mr. W. Johnson

2

October 30, 1984

We continue to be concerned that corrective actions may not be progressing at an appropriate rate to achieve improved operations in a timely manner. We plan to work with your staff to obtain commitment dates for carrying out the action items developed as a part of the performance enhancement program.

Sincerely,
