Dear Mr. Hildebrand:

Subject: Inspection No. 50-146/92-01

This letter refers to the announced safety inspection conducted by Mr. J. Roth of this office on June 24-25, 1992, at the Saxton Nuclear Experimental Corporation reactor facility in Saxton, Pennsylvania for the purpose of observing the demolition activities initiated on the site out-buildings identified in the enclosed inspection report. Those activities were being performed in accordance with the approved demolition plan for the facility.

Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. Within the areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and measurements and observations by the inspector.
