MEMORANDUM FOR: Thomas E. Murley, Director, NRR

FROM: Eric S. Beckjord, Director
Office of Nuclear Regulatory Research

SUBJECT: COMIS-92-008 - REGULATORY REVIEW

President Bush has requested that Federal agencies initiate a regulatory review in order to eliminate or revise regulations that are deemed unnecessary or unnecessarily burdensome. The President has also requested that agencies submit to him a report summarizing all pro-growth reforms implemented since January 28, 1992.

By SRM of June 1, 1992, the Commission requested that the staff continue to look for areas in which rulemaking would further the spirit of the President's initiatives relating to regulatory review, and should additional areas be identified, the Commission should be provided a projected rulemaking schedule.

In view of this Commission directive, I am requesting that you identify specific initiatives in your respective offices that should be provided to the Commission and included in NRC's upcoming report to the President. Given that our response to the Commission is due in mid-August, I am requesting that your response to this request be submitted to RES by July 23, 1992.

The RES contact for this action is Sidney Feld, 301-492-3748.
