Gentlemen:

This acknowledges the receipt of your letter dated July 21, 1992, by which you transmitted Revision 13 to the Comanche Peak Steam Electric Station Physical Security Plan for your facility.

The regional staff has reviewed the submitted revision and found the changes in the subject letter and the attachments thereto to be consistent with the provisions of 10 CFR 50.54(p). The changes updated the plan drawings that graphically detailed the plant vital areas for the physical security plan user. The actual changes to the plan drawings were the result of changes to vital area boundaries approved in Revision 12. Therefore, the changes contained in Revision 13 are acceptable for inclusion into the physical security plan.

The implementation of your revisions will be reviewed during a future inspection.

Sincerely,

  
A. Bill Beach, Director  
Division of Reactor Projects
