Nuclear Regulatory Commission
P.O. Box 25325
Denver, CO 80225

Dear Mr. Pettengill:

As we discussed on the phone today, Mr. Jerry Lucas, who has been Radiation Safety Officer (RSO), for ANC's mill in the Gas Hills, was terminated from the Gas Hills Project payroll effective December 31, 1984. It was intended that John DeJoia, Manager of Technical Services, would replace him but this was not acceptable to TVA, as I explained. I have attempted to use Jerry on a part-time or consulting basis but have been unsuccessful.

Please be assured that all monitoring, record keeping and reporting will be done as called for in our Source Materials License No. SUA-667 and some arrangement will be made for a R.S.O. in the very near future.

If you have any questions or concerns, please let me know.

Sincerely,

Niles J. Andrus
Vice President-Operations
