VOGTLE ELECTRIC GENERATING PLANT - UNITS 1 AND 2
DESIGN REVIEW/QUALITY REVALIDATION REPORT
TDI DIESEL GENERATORS

Dear Mr. Denton:

Please find enclosed three (3) copies of the TDI Diesel Generator Design Review and Quality Revalidation (DR/QR) report for the Vogtle Electric Generating Plant (VEGP). This report has been prepared by the TDI Diesel Generator Owners' Group for the VEGP Diesel Generators.

Please refer to the Executive Summary of the DR/QR Report and note that the Owners' Group concluded that the TDI Diesel Generators presently installed are fully capable of reliably performing their intended safety function. The DR/QR Report forms the basis for this conclusion. The report has not been reviewed in detail by Georgia Power Company (GPC) to date, so that submittal of the report at this time constitutes neither agreement nor disagreement on the part of GPC with the recommendations made therein by the TDI Owners' Group. A full review of the DR/QR report and evaluation of the recommendations by GPC is now under way.

Two (2) copies of the VEGP DR/QR report are also being sent directly to the NRC's Diesel Generator consultants at Pacific Northwest Laboratories.

Yours truly,

D. O. Foster
