Docket No. 50-254
Docket No. 50-265

Commonwealth Edison Company
ATTN: Mr. Cordell Reed
Senior Vice President
Licensing Department - Suite 300
Opus West III
1400 Opus Place
Downers Grove, IL 60515

Dear Mr. Reed:

SUBJECT: REQUALIFICATION EXAMINATION REPORT

During the week of September 14-18, 1992, Mr. M. Bielby and others of this office administered requalification examinations to employees of your organization who operate the Quad Cities Nuclear Power Station. At the conclusion of the examination, any generic findings that evolved as a result of the examination were discussed with those members of your staff identified in the enclosed report.

As a result of this evaluation, your requalification program has been assigned an overall program rating of satisfactory in accordance with the criteria of NUREC-1021, Revision 6, Operator Licensing Examiner Standards, ES-601.

The NRC examiners noted excellent simulator fidelity and modeling. Examination scheduling by your training department was well planned and executed. In addition, your training department is to be commended for their innovative development of a computer program that encourages operator self evaluation and feedback to the examination question bank. This interaction has improved the quality of the questions in the bank.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures will be placed in the NRC Public Document Room.
