Dear Mr. McKee:

T.K. Schuster letter dated May 13, 1992, Reference F, was our supplemental response to an unresolved and subsequent violation concerning containment access during periods of major maintenance and/or refueling.

Attachment A is Commonwealth Edison's clarification of that response. This response is based on telephone discussions between Commonwealth Edison Security Managers and NRR personnel on September 23, 1992 and September 28, 1992.

This clarification is submitted directly to NRR since Region III has formally requested Headquarters (NRR) resolve the issue.

Commonwealth Edison appreciates your assistance to resolve this issue in a timely manner. If you have any questions regarding this matter, please direct them to this office.

Sincerely,

Terrence W. Simpkins
