OPERATOR LICENSING EXAMINATION MATERIALS

Gentlemen:

The purpose of this letter is to document the transmittal of subject materials to support scheduled operator licensing examinations at the Brunswick Steam Electric Plant. These reference materials were requested by the NRC staff's letter dated June 15, 1992. The NRC staff requested that the reference materials be received within 60 days of scheduled examinations. By letter dated August 18, 1992, Carolina Power & Light Company confirmed discussions with the NRC staff to reschedule these operator licensing examinations to the week of December 7, 1992. The materials requested were sent to the contract examination developer, Mr. Chuck Tyner, by memorandums from Mike Williams dated July 8, 1992 and August 7, 1992.

Please refer any questions regarding this submittal to Mr. M. R. Oates at (919) 546-6063.

Yours very truly,

D. C. McCarthy
Manager
Nuclear Licensing Section
