Mr. Merle E. Crew, Project Manager
Grand Junction Area Office
U.S. Department of Energy
Post Office Box 2567
Grand Junction, Colorado 81502

Dear Mr. Crew:

We have reviewed the Radiological and Engineering Assessment (REA) for the vicinity property identified in the enclosure and concur with the planned remedial action. This concurrence is based on the following conditions:

1. We have concurred in the current version of the VPMIN;
2. The recommended action in each REA involves less than 10,000 cubic yards of contaminated material and is intended to meet the primary EPA standards; and
3. The removed contamination will be disposed as described in the enclosure.

Please notify us immediately of any action or decision which may affect any of these conditions.

If you should have any questions on this or any other vicinity property remedial action concurrence, please contact Dennis Sollenberger of my staff at (FTS) 427-4789.

Sincerely,

Original signed by
Leo B. Higginbotham

Leo B. Higginbotham, Chief
Low-Level Waste and Uranium
Recovery Projects Branch
Division of Waste Management
