	)	Tech.Spec. 5.3.1.B
	)	Movement of Heavy Loads Over
<u>Oyster Creek Nuclear Generating Station</u>	)	Irradiated Fuel

MOTION FOR LEAVE TO REPLY

Pursuant to 10 CFR 2.730 petitioners Nuclear Information and Resource Service, Oyster Creek Nuclear Watch, and Citizens Awareness Network respectfully make a motion for leave to reply to General Public Utility Nuclear Response (June 21, 1996) and NRC Staff Response (June 26, 1996) In Opposition To Request For Hearing and Petition To Intervene of Nuclear Information and Resource Service, Oyster Creek Nuclear Watch, and Citizens Awareness Network.

The petitioners argue that their petition to intervene dated June 6, 1996 cannot be expected to anticipate the arguments and objections by the licensee and the staff. Therefore, the petitioners should have an opportunity to respond to all arguments calling for the dismissal of the petitioners. Houston Lighting and Power Co. (Allens Creek Nuclear Generating Station), ALAB-565, 10 NRC 521, 525 (1979).

The NRC and GPUN have misinterpreted the petitioners' position as stated in the June 6, 1996 filing. Consequently, the NRC and GPUN have expressed opposition to the petitioners gaining standing in a matter deemed serious and worthy of a hearing.

Therefore, the petitioners respectfully request an opportunity to prepare a timely reply to the objections raised by GPUN and NRC staff. Because of the upcoming July 4th holiday, the petitioners can be prepared to submit a reply by July 12, 1996.
