Gentlemen:

This refers to the inspection conducted by Messrs. R. Smith and B. Breslau of this office during the period February 19-March 22, 1985, of activities authorized by NRC Construction Permit CPPR-147 for the Wolf Creek Generating Station, and to the discussion of our findings with Mr. F. T. Rhodes, and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included review and witness of control room operations, preoperational test results review, review of startup and power ascension test procedures, followup on previous inspector findings, inspection tour of the plant, review of quality assurance practices as related to the power ascension program and the witness of initial fuel loading and installation of the reactor vessel head.

Within the scope of the inspection, no violations or deviations were identified.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Original Signed By:  
Richard P. Denise
