ASME Code Section XI Inspection and Testing Program
Request for Relief No. 66

Our ASME Code Section XI Inspection and Testing Program incorporated Request for Relief No. 66. This relief request was accepted by the NRC Staff by letter dated December 28, 1984. We mistakenly thought that this relief request was not accepted; we withdrew the request and replaced it with a request for schedular relief in a letter dated December 30, 1991. During NRC Staff review of our request for schedular relief, the Staff reviewer noted that our initial request for relief had already been accepted and informed us that it was acceptable to leave it in place.

We, therefore, withdraw our letter of December 30, 1991 and are reinstating Request for Relief No. 66 into our program. The next revision to the program will reflect this change.

Please contact us if you have any questions related to this letter.
