OCT 14 1992

Docket No. 030-32300
License No. 11-27359-01
EA 92-184

Western Construction, Inc.
ATTN: Richard Heaton
President
Post Office Box 15569
10139 South Federal Way
Boise, Idaho 83715

Gentlemen:

SUBJECT: DEMAND FOR INFORMATION

The enclosed Demand for Information is being issued to obtain additional information from Western Construction, Inc. (Western) regarding its past use of licensed radioactive material and its commitments to comply with NRC requirements in the future.

NRC sent Western a Confirmatory Action Letter (CAL) on August 14, 1992. This CAL confirmed Western's agreement to maintain its licensed moisture/density gauge in storage pending the resolution of NRC concerns about the apparent illicit use of this gauge. As the enclosed Demand for Information states, the information NRC is seeking is necessary to assist NRC in deciding whether to permit Western to resume the use of this gauge and whether to take enforcement action against Western for an apparent violation of NRC requirements.

Questions concerning this Demand for Information should be addressed to James Lieberman, Director, Office of Enforcement, who can be reached at (301) 504-2741.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice", a copy of this letter and the enclosure will be placed in the NRC's Public Document Room.

Sincerely,

200002

James Lieberman
James Lieberman, Director
Office of Enforcement

Enclosure: Demand for Information
