Russellville, Arkansas 72801-0967

SUBJECT: CHANGES TO THE ARKANSAS NUCLEAR ONE EMERGENCY ACTION LEVEL
CLASSIFICATION PROCEDURE, PROCEDURE NUMBER 1903.010, REVISION 33,
PROCEDURE CHANGES 1 AND 2

Dear Mr. Yelverton:

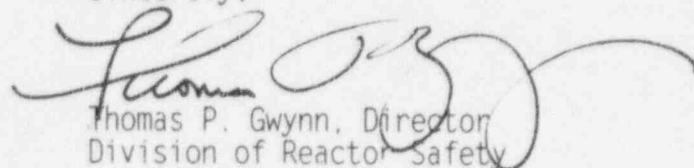

We have received your submissions of Revision 33, Procedure Changes 1 and 2, to the Arkansas Nuclear One Emergency Action Level Classification Procedure 1903.010, received in May 1996. These changes were submitted pursuant to 10 CFR 50.54(q) and 10 CFR 50.4; and incorporated the following:

- (1) Emergency Action Level Classification Procedure 1903.010, Revision 33, Procedure Change 1: Provides for an "Information Only" notification of certain non-emergency events to licensee management, the State of Arkansas and the NRC.
- (2) Emergency Action Level Classification Procedure 1903.010, Revision 33, Procedure Change 2: Units 1 and 2 emergency action levels 5.6 - In the criteria section, included the cask loading pit, fuel tilt pit or any plant area involving the movement/storage of spent fuel and added Miscellaneous Events to related emergency action levels.

Our review determined that the changes are acceptable and do not appear to degrade the effectiveness of your emergency planning at the Arkansas Nuclear One facility.

Should you have any questions concerning this letter, please contact Mr. Arthur D. McQueen at (510) 975-0241.

Sincerely,

Thomas P. Gwynn, Director
Division of Reactor Safety
