Source and Special Nuclear Materials Branch  
Division of Licensing and Regulation

REFERENCE: License SNM-268, As Amended

Gentlemen:

On October 1, 1963 we requested our Special Nuclear Material License to be amended to allow us to possess 500 grams of Uranium-235. Our amended license was issued October 30 as requested.

Due to a problem of liability insurance which came up subsequent to the above amendment we now ask that our license be once again amended decreasing the quantity of Uranium-235 from 500 grams to 250 grams.

All other terms and conditions of our license remains the same.

Your expeditious consideration of this matter would be greatly appreciated.

Sincerely yours,
