Reference: Docket # 030-20282/92-01
License #35-23125-01

Gentlemen,

In response to your letter of October 8, 1992 requesting a description of our plans to improve the effectiveness of the management control of our licensed program, a the following plan has been initiated:

The Nuclear Medicine department shall be monitored weekly by the department director as to the completion of all requirements. Such monitoring will be documented by the director.

When these violations occurred before, the program was not monitored on a regular basis by the department supervisor. This monitoring will prevent negligence on the part of the department.

Sincerely,

Douglas K. Weaver
Chief Executive Officer
