Dear Ms. Rodriguez:

'92 SEP -6 48:50

Enclosed is payment for invoice no. AMO6501-92 related to an annual fee for NRC license No. 35-16717-01. This payment is made in protest as I will outline for you.

Attached is a review of the chronological activities which have occurred at Newman Memorial Hospital (NMH) since July of 1990. As your files would indicate there have been several occasions whereby NMH was found to be in violation of various NRC Regulations. NMH responded to each one of these areas of violation and moved forward to correct the problems at the earliest possibility. However, we found it difficult to respond to all the needs and were summoned to the NRC Region IV Office in Arlington, Texas for an enforcement conference. This conference was conducted on November 14, 1990. Prior to conduct of that enforcement conference, the NRC was notified of the Hospital's outline of a plan to address the concerns. This included immediately suspending any activity under the license. This management plan was subsequently approved by the Hospital Board of Directors at a meeting of 11/23/90. Additional situations occurred following this timeframe including additional notices of violation and corrective plans. Also, of significance is the imposition of a civil monetary penalty in the amount of \$5,000 which was paid as of 1/18/91.

I respectfully request your consideration to a reduction or elimination of our fee due to the fact that the license, although current, was not actively utilized in the maintaining of a Nuclear Medicine Department since November of 1990. Unfortunately, as a new executive, I was unaware of the possibilities to apply for storage only which was subsequently done as 1/16/92. This is very close to the deadline for which I understand response to terminate licenses were required so that imposition of fees would not occur for 1992. The license from NRC was terminated effective 3/23/92

We would appreciate consideration of either elimination of the fee or reduction to a small generator entity which I understand the maximum fee to be assessed in that case is \$1,800.

Respectfully,
