SUBJECT: NRC INSPECTION REPORT 030-28641/96-06 AND NOTICE OF VIOLATION

Dear Lt. Colonel Donnelly:

On May 23, 1996, the NRC completed an inspection at Patrick Air Force Base (AFB), Florida. The purpose of the inspection was to determine whether activities authorized by Air Force Permit Nos. 09-30271-1AFP, 09-11975-1AFP, 09-30348-1AFP, and 09-304-76-1AFP were conducted safely and in accordance with NRC requirements.

Based on the results of this inspection, certain of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice of Violation (Notice). Specifically, three examples were identified where the labeling of packages containing radioactive material for shipment were in violation of the NRC's and the Department of Transportation's regulations.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to prevent recurrence. After reviewing your response to this Notice, including your proposed corrective actions and the results of future inspections, the NRC will determine whether further NRC enforcement action is necessary to ensure compliance with NRC regulatory requirements.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the NRC Public Document Room.

The responses directed by this letter and the enclosed Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, Pub. L. No. 96.511.
