Atlanta, GA 30334

Dear Mr. Reheis:

On June 21, 1996, the Management Review Board (MRB) met to consider the proposed final Integrated Materials Performance Evaluation Program (IMPEP) report on the Georgia Agreement State Program. The MRB considered and concurred with the review team's recommendation that the Georgia program be found adequate to protect public health and safety and compatible with NRC's regulatory program. Based on State performance, the next IMPEP review will be scheduled in four years, unless program concerns develop that require an earlier evaluation.

Section 5 (page 18) of the enclosed final report presents the IMPEP team's recommendations. We request your evaluation and response to those recommendations within 30 days from receipt of this letter.

I appreciate the courtesy and cooperation extended to the IMPEP team during the review.

Sincerely,
