Attn: Dr. John Kinneman

Subject: Micro-Selectron-HDR Application

Dear Dr. Kinneman,

I am writing to express our concern over the status of our Micro-Selectron-HDR application for license amendment. Copies of earlier correspondence are attached. As you see the amendment was initially submitted on March 29, 1991 and subsequently reported to me as "lost." It was submitted again on June 11th. Ms. Maureen Taylor has been in contact with me this week and cannot seem to locate the second package. I enclose also a copy of our Federal Express Airbill dated June 11.

The check for amendment sent with the March 29 submission has apparently not yet been submitted for payment by the NRC according to our Accounting Office. I trust that it is not lost.

Yours sincerely,

E. W. Webster, Ph.D., Chairman
Radiation Safety Committee
