Dear Mr. Thorne:

I wish to refer to your letter of March 13, 1985 concerning an application from Westinghouse Electric Corp. for a license to export 6 000 kgs U containing 240 kgs U-235 to AB ASEA-ATOM for fabrication of fuel rods for ultimate use in Northern States Power Co, Minnesota.

The above mentioned material will be subject to all terms and conditions of the Agreement for Cooperation which entered into force on April 11, 1984 concerning the civil uses of atomic energy between the Government of Sweden and the Government of the United States. AB ASEA-ATOM is authorized to receive and possess the material.

I would appreciate receiving a copy of the export license when it has been approved.

Sincerely yours,
