Towaco, New Jersey 07082

Gentlemen:

This is to confirm our discussions at the meeting with members of the Material Certification and Procedures Branch in Silver Spring, Maryland on November 19, 1984.

As a result of our discussions and your letter dated November 21, 1984, it is our understanding that concerning your application for an NRC license dated March 5, 1984 you will provide the following information in order that we may continue our review.

1. Name(s) of manufacturer and Model Number(s) of each sealed source to be used with your Model No. MK2.0 and MK1.0 gauges.
2. Submit a list of radiation detection instruments that will be used by individual(s) named to perform radiation surveys after installing, relocating, servicing or removing gauges at customer's facilities and surveying shipping containers to assure DOT regulations are met.
3. Indicate who will perform the survey instrument calibration on the instruments listed for Item 2 above. If this calibration is performed by your parent company, describe the method, frequency and standards used for instrument calibration.
4. Clarify, whether you will provide leak test services for your customer; if so, submit a copy of the leak test certificate and describe the contents of the leak test kit (Model No.) you will provide your customer.
5. Submit a description of the training program you will provide to your customers in radiation protection concerning the use of your gauging devices including on what surfaces of the gauge leak test samples are to be taken.
