SUBJECT: NRC INSPECTION AND NOTICE OF VIOLATION
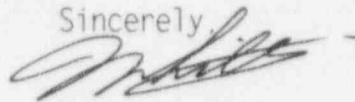

Dear Mr. Strigel:

This refers to the inspection conducted on July 17, 1996 at Coleman
Engineering Co. The purpose of the inspection was to determine whether
activities authorized by the license were conducted safely and in accordance
with NRC requirements. At the conclusion of the inspection, the findings were
discussed with Mr. J. Edlebeck via telephone on July 29, 1996.

The inspection was an examination of activities conducted under your license
as they relate to radiation safety and to compliance with the Commission's
rules and regulations and with the conditions of your license. Within these
areas, the inspection consisted of selective examinations of procedures and
representative records, interviews with personnel and independent
measurements.

Based on the results of this inspection, the NRC has determined that
violations of NRC requirements occurred. The violations are cited in the
enclosed Notice of Violation (Notice). A written response is required.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of
this letter, the enclosure, and your response to this letter will be placed in
the NRC Public Document Room (PDR). To the extent possible, your response
should not include any personal privacy, proprietary, or safeguards
information so that it can be placed in the PDR without redaction.

Sincerely,

Monte P. Phillips, Chief
Nuclear Materials Inspection
Branch 2
